

Here's What Our Patients Are Saying

With headaches and severe back pains with numbness, I was suffering sleepless nights. My life was a wreck having considerable fatigue and emotional problems. All of which has diminished since going to South Florida Physical Therapy Associates. I feel more energized and happy to have a good healthy attitude. All of which was provided in a professional and friendly manner.

I've been suffering with constant nagging back pains for ten years. It kept getting worse, and I was unable to do any normal activities without intense pain. My neurologist advised a surgical procedure to fuse two vertebrae. Since I wanted to avoid surgery, South Florida Physical Therapy Associates recommended an aggressive non-surgical approach. Now I feel healthy again! At the age of 33, I have so much of my life ahead of me and feel confident it will be pain free! Thanks so much for your help and caring!

— Mike M.

For the past four years, I've been suffering with neck pains, numbness in my hands and headaches. I had been to several other clinics without getting any help. When I finally came here, they were able to correctly diagnose the problem and begin treatment. I feel so much better now and so very grateful to you all and will definitely recommend you to my friends and family.
